## Communications Security Reminders

U.S. Army Europe will not process, store or send classified information on non-secure telecommunications systems. Department of Defense telecommunications systems include computer networks, fax machines, modems, telephones and radios. Use of official DOD telecommunications systems constitutes user consent to information systems security monitoring. Commanders will ensure the following telecommunications security notification requirements are met: official DOD telephone or communications directories published in USAREUR will display the security notice on the front cover or prominently in the general

information section; DD Form 2056 must be on telephones and fax machines within DOD, including secure telephones; a computer log-on security notice must be on all computer systems; and new personnel must receive a briefing on telecommunications security. ### Be Aware of Suspicious Packages

Community members need to be aware of suspicious mail and packages. Characteristics to look for include an unusual or unknown place of origin, no return address, an excessive amount of postage, threatening messages, an abnormal or unusual size, oily stains or powder, incorrect spelling of common words, differing return address and postmarks and peculiar odors such as almond, dried grass or peach. Never touch or move a suspicious package or letter, and wash hands immediately if you suspect the package may be contaminated. Immediately report incidents by calling the Stuttgart Military Intelligence Office at 421-2206/civ. 0711-729-2206.

### Use ZIP+4 For Military Addressed Mail

The standardized U.S. Army Europe mailing address is four lines and includes the ZIP+4, a four-digit addition to the five-digit APO number. The four numbers added to the ZIP correspond either to the box number (with leading zeros) or to the last four digits of the unit number. For example, Box 1952 of zip code 09128 would be 09128-1952 and box 14 would 09128-0014. The zip+4 of unit 29058 would be 9058. For more info call your local Army Post Office, the USAREUR Postal Operations Directorate at 379-7643/civ. 06202-806-131, or visit the Postal Operations Directorate Web site at <https://home.1perscom.army.mil/pod>.

### USMA Accepting Soldier Applications

Officials at The United States Military Academy and The United States Military Academy Preparatory School are encouraging soldiers to apply for the 2003 school year. Most soldiers first attend the 10-month Prep School designed to help soldiers prepare for the academics of West Point, but some soldiers are admitted directly into the USMA. Soldiers interested in either program must be U.S. citizens, unmarried, with no legal obligation to support dependents, younger than 23 prior to July 1 of the year entering, of high moral character and have a sincere interest in becoming an Army officer. Although applications aren't due

until April 1, 2003, soldiers should make plans now because they will need to take the SAT or ACT. More information is available online at [www.usma.edu/admissions](http://www.usma.edu/admissions) or call Hodges at 312-688-5780 or 845-938-5780, or e-mail [tc2324@usma.edu](mailto:tc2324@usma.edu).

### Shuttle Bus Safety Tips

Passengers must remain seated while riding the shuttle bus. Standing passengers are a safety hazard. The maximum capacity of each bus is limited to the seating capacity of that bus, and three different-sized shuttle buses run the shuttle routes. All attempts are made to ensure that a larger capacity bus operates the heavy passenger runs.

Occasionally Department of Defense Dependent School students ride the community shuttle rather than the school buses provided by DODDs, but students are encouraged to use the buses provided. If more students use the school buses, crowding on shuttle buses may be alleviated. Shuttle bus services are free and a

great service to the community. Do your part to ensure passenger safety while taking advantage of this free service. For info call 421-2472/civ. 0711-729-2472.
